4-Station Automatic Heat Press-S4-20

S4-20 is a 4-station automatic heat press machine designed for high-volume production of heat transfers. It features four independent workstations, each with a digital temperature control system and a pressure adjustment knob. The machine is built with a heavy-duty frame and a thick heat plate to ensure uniform heating and reliable quality. It is suitable for a wide range of materials, including t-shirts, hoodies, and bags.
