

## Description

Microtec 4-axis CNC lathe machine with DTF tool holder. It is a high-precision machine used for manufacturing complex parts.

Microtec 4-axis CNC lathe machine with DTF tool holder. It is a high-precision machine used for manufacturing complex parts.

## Feature

High precision DTF tool holder for accurate tool positioning.

4-axis CNC control for complex part manufacturing.

DTF tool holder for improved tool life and accuracy.

High-speed spindle for efficient machining.

Robust construction for long-term reliability.

## Specification

Model	SSB-003
Tool Holder	DTF Tool Holder
Control	PLC Control
Spindle	K871IP Spindle
Power	220V
Speed	1200W
Accuracy	0.4MP-0.6MP
Dimensions	120x80x178mm
Weight	205kg
