

3 LAYERS ANTI-SCALD DESIGN

High Quality Silicone
Soft and Heat-Resistant

Unique Fiber
Better Insulation

Skin-Friendly Liner
Comfortable to Wear

1. The outer layer is thickened with anti-scalding silicone and has a built-in heat-insulating cotton cloth, which not only insulates heat but also absorbs sweat.
 2. The middle layer is made of unique fiber, which provides better insulation.
 3. The inner layer is a skin-friendly liner, which is comfortable to wear.

- The outer layer is thickened with anti-scalding silicone and has a built-in heat-insulating cotton cloth, which not only insulates heat but also absorbs sweat.
- The middle layer is made of unique fiber, which provides better insulation.
- The inner layer is a skin-friendly liner, which is comfortable to wear.

RESISTANT TEMPERATURE UP TO 482 °F

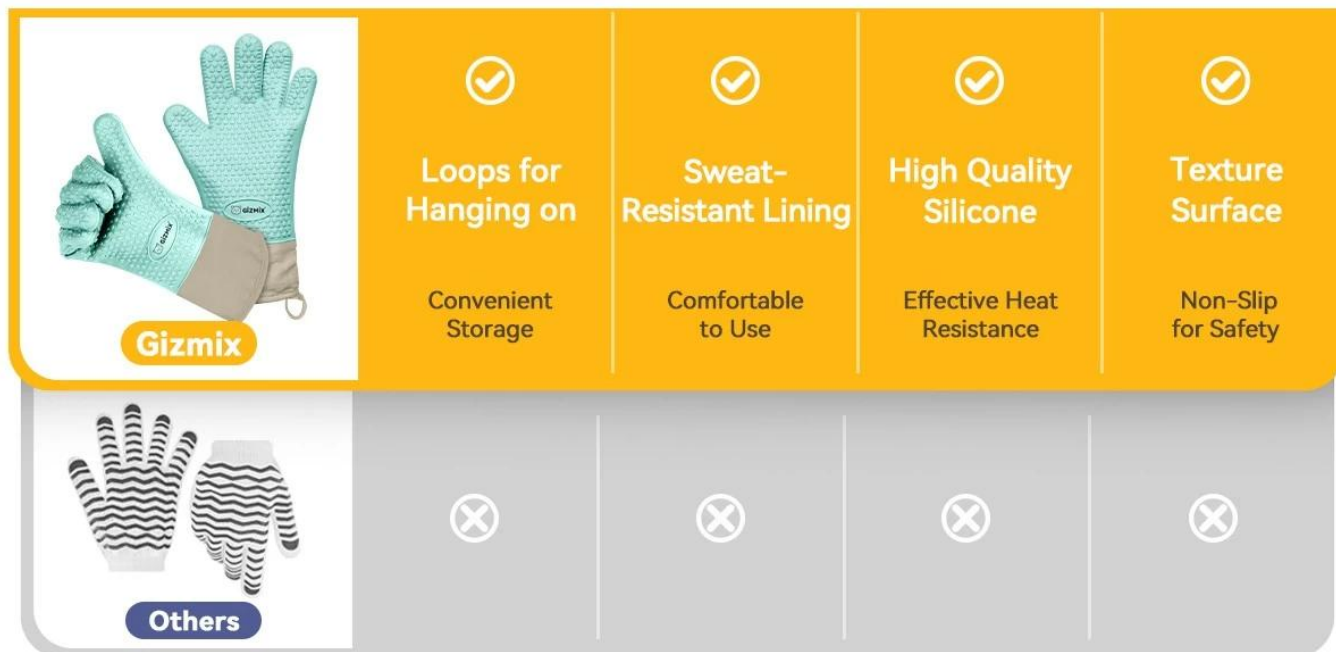

The outer layer is thickened with anti-scalding silicone and has a built-in heat-insulating cotton cloth, which not only insulates heat but also absorbs sweat.

- 耐熱性 482°F (250°C) まで耐熱性があります。
- 耐油性 油、grease、fat などに耐えます。
- 耐酸性 弱酸性、弱アルカリ性に耐えます。
- 耐アルカリ性 弱アルカリ性に耐えます。
- サイズ 13インチ*4.4インチのサイズがあります。
