Features

Full Size Transfer

Print size up to 150x250cm designed and built for full Transfer, even on the collar with fold.

High Pressure

With dual cylinders, the XSTM can provide high pressure for Maximum 45PSI.

Even Heat Distribution

The high quality heating plate of XSTM ensures exact temperature distribution over the whole heating Plate.

Automatical Mode

Heat press runs automatically with setting temperature and time

Easy Operation

Time and temperature are set within one digital controller panel, as well as the manual/ auto mode can be switched easily.

One Side Two Stations

With the 2 base plates, high production volumes can easily be achieved

Applications
