

Description

Microtec 4-axis automatic lathe machine tool with high precision and high speed, suitable for processing various metal parts.

Microtec 4-axis automatic lathe machine tool with high precision and high speed, suitable for processing various metal parts.

Feature

High precision and high speed processing.

DTF (Direct Tool Feed) system for improved accuracy.

Automatic tool change system for efficient production.

DTF (Direct Tool Feed) system for improved accuracy.

High precision and high speed processing.

Automatic tool change system for efficient production.

Specification

Model	SSB-002
Control System	PLC Control
Dimensions	≤30x30mm
Spindle	K871IP
Power	220V
Speed	900W
Accuracy	0.4MP-0.6MP
Weight	120x90x178mm
Material	245mm
