

The image shows a Microtec HeatPRO industrial heat treatment chamber. It is a large, dark-colored metal cabinet with a glass-paned upper door and a solid lower door. The lower door features the Microtec logo and the 'heatPRO' branding. A robotic arm with a gripper is mounted on top of the chamber. A control panel with a digital display and buttons is attached to the side of the unit. The background is a blue and white geometric pattern.

- 产品名称SSE-001

产品特点

- 打印尺寸 $\leq 30 \times 30 \text{cm}$
- 控制方式plc
- 触摸屏TK871IP
- 速度 $\geq 180 \text{pcs/h}$
- 电压220V
- 功率900W
- 精度0.4MP-0.6MP
- 尺寸120x90x178cm
- 重量245kg

Microtec SSE 4000 Series

Microtec SSE 4000 Series is a family of high-performance, low-cost, and reliable microcontrollers designed for a wide range of applications.

Microtec 4000 Series microcontrollers are available in a variety of packages, including DIP, SOIC, and TSSOP. They are designed to provide a high level of performance and reliability, making them ideal for use in a wide range of applications.

Microtec 4000 Series microcontrollers are available in a variety of packages, including DIP, SOIC, and TSSOP. They are designed to provide a high level of performance and reliability, making them ideal for use in a wide range of applications.

Features

Microtec 4000 Series

Microtec 4000 Series microcontrollers are designed to provide a high level of performance and reliability, making them ideal for use in a wide range of applications.

- High performance
- Low cost
- Reliable
- Wide range of applications
