

Description

The Microtec MAX-200 Hobby Heat Press is an auto open heat press designed with a focus on ease of use and versatility. It comes with two heater sizes: a 78x125mm Cap Heater and a 150x150mm Heater, making it suitable for a variety of projects.

The NMAX-200 series cap heat press machine is equipped with a fast-heating head, ensuring quick start-up and operation. It features a strong support base, adding to its durability and stability during use. The operation of this machine is straightforward and user-friendly, catering to both beginners and experienced users.

Upgraded 2-in-1 Hobby & Hat Heat Press With Quick Change Heat Platen

- Unique Quick-change Mechanism
- Interchangeable Upper & Lower Platen
- Wider Application for Bags, Hats, Ornaments etc

Quick Slide-out Heat Platen

Key features of 2-in-1 Hobby Heat Press:

Unique Quick-Change Mechanism: NMAX-200 heat press features a fast-changeable slide-out heater design, making it easy to switch between different heating elements. This design enhances efficiency and minimizes downtime, allowing you to complete projects quickly.

Dual Heater System: This hobby heat press comes equipped with two heaters - a 78x125mm cap heater and a 150x150mm heater. This dual heater system allows you to work with various-sized items, ensuring precise and even heat distribution for optimal results.

2-in-1 Press Capability: The NMAX-200 offers a 2-in-1 press design, making it suitable for both small and large orders. Whether you're working on individual custom items or larger production runs, this heat press can accommodate your needs with ease.

Humanized Design: The hobby heat press is designed with user comfort in mind. Its intuitive controls and ergonomic features make it easy to operate, ensuring a smooth and hassle-free heat transfer process.
