Model: UHP-15M-D (Platen size: 38*38cm)
Model: UHP-20M-D (Platen size: 40*50cm)

Quality assurance Gold medal service Perfect after-sales

UHP Dual Shuttle Heat Press key features:

Double Stations for Enhanced Productivity: The double station design is a standout feature, enabling you to complete more tasks in less time, effectively doubling your productivity. You can prepare and load materials on one station while the other is in operation, maximizing efficiency.

Auto Open Functionality: The "Auto Open" function automatically opens the heat press once the preset time is reached. This feature is not only time-saving but also ensures that your transfers are released at the perfect moment, preventing overexposure and scorching.

Shuttle Mechanism: The shuttle design allows for easy loading and unloading of materials, making it ideal for high-volume production. It minimizes effort and time required to switch between stations.

Digital Control Panel: The user-friendly digital control panel enables precise adjustments of time, temperature, and pressure settings, allowing you to customize the heat transfer process to suit different materials.

Wide Application Range: This heat press is compatible with a variety of substrates, including garments, textiles, ceramics, and more. It's suitable for creating custom apparel, promotional items, and personalized gifts.

Feature

Double Station with Sliding: Equipped with two working stations, enabling you to complete more tasks in less time, making it an excellent choice for businesses with high production demands.

Anti-scald Protective Cover: The Anti-scald Protective Cover acts as a barrier between the user and the hot heat platen, significantly reducing the risk of accidental burns or scalds during operation.

Auto Open Design: The "Auto Open" feature not only saves time but also ensures consistent and high-quality heat transfers by preventing overexposure.

High-quality Gas Spring: This gas spring makes this shuttle auto open heat press machine open smoothly and safely.

Specification

Model No.	UHP-15M-D/ UHP-20M-D
Machine Type	Auto Open, Double-Station
Platen Size	15"x15"/16"x20" (38x38cm/40x50cm)
Controller	GY-04 Digital Time & Temp. Control
Voltage	120V/ 220V
Currency	11A/ 20A
Power	1.6KW/ 1.8KW
Frequency	50HZ/ 60HZ
Time Range	0-999 sec.
Maximum Temp.	225 °C
Temperature Accuracy	±0.5%°C
Machine Size	88x74x41cm
Wooden Box Size	101x88x58cm (for 40x50 one)
Net Weight	88kg for 40x50 one
Gross Weight	95kg for 40x50 one
Certification	CE

Application

UHP Dual Shuttle Heat Pres is compatible with a variety of substrates, including garments, textiles, ceramics, and more. It's suitable for creating custom apparel, promotional items, and personalized gifts.
