

## Description

Sublimation paper is a coated specialty paper designed to hold and release dye sublimation ink onto surfaces. Microtec KNA series sublimation paper is with stable quality, and over 98% high transfer rate, reduce production cost by less ink consumption, save money. KNA series sublimation paper also features quick drying and excellent printing details.

Apply for white or light colored high quality polyester, material with cotton content  $\leq 30\%$ , sublimation coated ceramic & tile, phone case & metal plate, mouse pads, lanyard etc.

### High Transfer Rate

KNA sublimation paper offers an over 98% transfer rate efficiency, maintaining true color and precision plus greater ink saving. The thicker coating of sublimation paper keeps inks from bleeding through, and more ink will make its way to the substrate. You will have stunning, bright and crisp results for every project!

### No fracturing, Fast dry

Your printed image is almost dry by the time it prints, saving waiting time and allowing you to go right to sublimation transfer. What's more, KNA sublimation transfer paper can save up to 20% on ink costs compared to other papers. With less ink used, you'll be finishing more projects on a limited budget.

### Easy to Use

[1] Print the image with sublimation ink, and check the "Mirror Image" setting.

[2] Adjust the recommended heat press setting, put the sublimation blanks on the heat press machine.

[3] After heating is finished, peel the sublimation transfer paper. The transfer has been done! In just a few minutes you can realize an idea of your own.

## Specification

<b>Model No.</b>	KNA-120
<b>Paper Weight</b>	120g
<b>Paper Size</b>	A4 & A3
<b>Transfer Rate:</b>	≥98%
<b>Drying Speed</b>	Fast Dry, 20 seconds
<b>Paper Back</b>	Gold A-sub
<b>Packing</b>	100sheets/bag
<b>Carton</b>	30bags/Carton (A4 size)

## Microporous structure make higher transfer rate and instant dry

Polyester-coated hard substrates  
Polyester-coated textiles

# The transfer process of Sublimation paper

Work with sublimation ink and heat press
