

## Description

MaxArmour P3 Series Basic entry-level manual heat press with large open angle enables you to print many flat sublimation blanks. It has the unique design. For this machine, available sizes are 38x38cm, 40x50cm and 40x60cm. MaxArmour series designed to offer an economical solution for heat transfer applications. This clamshell heat press boasts user-friendly features and enhanced functionality to meet the diverse needs of users.

The whole body of the heat press is made by mold which not only enhances the production efficiency, but also standardized the production processes. The MaxArmour heat press machine utilizes Hi-Tech heat resistant ABS material to bring a streamline structure of the press, meanwhile, we can also customize colors for you.

Among many [T-shirt heat press machines](#), Microtec MaxArmour Heat Press machine stands out for its economic design, user-friendly features, and enhanced safety measures. Whether opting for manual or auto-open configurations, users can enjoy the flexibility and reliability needed for efficient heat transfer processes across a range of applications.

## Feature

### Key features of the SHP-15/20/24LP3 High Pressure Heat Press:

**GY-05N Digital Controller:** The GY-05N digital controller provides simple and precise operation. You can easily set the time, temperature, and pressure settings according to your specific heat transfer requirements. The LED display on the controller remains visible even in low-light conditions, ensuring accurate adjustments.

**Ergonomic Handle:** The heat press features an ergonomic handle for effortless opening and closing. This design reduces the amount of physical effort required, making it comfortable to use for extended periods.

**Upgraded Heating Plate and Element:** The press incorporates upgraded heating plates and elements to ensure even heat distribution and minimize the risk of uneven heat points or equipment failures. This results in consistent and high-quality heat transfers.

**Manual or Auto Open Options:** The MaxArmour series offers flexibility with the option to choose

between manual or auto-open configurations. This adaptability allows users to select the mode that best suits their specific requirements.

## Specification

---

Model No.	SHP-15LP3/ SHP-20LP3/ SHP-20LP3
Machine Type	Manual, Clamshell
Platen Size	15"x15"/ 16"x20"/ 16"x24" (38x38cm/ 40x50cm/ 40x60cm)
Controller	GY-05 Digital Time & Temp. Control
Printable Articles	Up to 20mm Thickness
Opening Angle	50 Degrees
Gas Spring Control	Yes
Voltage	120V/ 220V
Power	1750W/ 1800W
Time Range	0-480 sec.
Maximum Temp.	225 C
Packing Size	78x48x57cm/ 80x63x55cm/ 83x74x54cm
Gross Weight	44kg/ 56.5kg/ 59kg

## Application

---

The MaxArmour P3 series Heat Press machine is versatile, allowing users to transfer images onto various flat surfaces such as T-shirts, jeans, pillowcases, jigsaw puzzles, mouse pads, ceramic tiles, and more. This broad application range adds to the machine's overall utility.
