

PEN HEAT PRESS MACHINE

MODEL: PP-10A

PP-10 4-in-1

PP-10 is a 4-in-1 heat press machine that can be used for sublimation printing, direct to garment (DTG) printing, and more. It is a compact and easy-to-use machine that is perfect for home use or for small businesses. The machine is made of high-quality materials and is built to last. It has a digital display and controls that make it easy to use. The machine is also very safe and has a safety lock that prevents the heating element from being touched. The machine is also very easy to clean and maintain. It is a great investment for anyone who wants to start a sublimation printing business or who wants to print their own designs on t-shirts and other items.

- The machine has 4 different heating plates that can be used for different types of printing:
 - The top plate is 15x10 cm and is used for printing on t-shirts and other items.
 - The bottom plate is 9 cm and is used for printing on mugs and other items.
 - The side plate is 14.5x8 cm and is used for printing on pens and other items.
 - The front plate is 15x15 cm and is used for printing on hats and other items.
- The machine has a digital display and controls that make it easy to use.
- The machine is also very safe and has a safety lock that prevents the heating element from being touched.
- The machine is also very easy to clean and maintain.

- 温度 $\pm 5^{\circ}\text{C}$
- 外形寸法 44.8x25.7x36.5 cm

目次
