Specification

Model	MP-160A/MP-160B
Capacity	2-in-1 mug press machine
Temperature	110-300°C (230-572°F)
Controller	NTTH-2000 Digital Controller
Temperature	220°C (437°F)
Pressure	0-999g
Power	2*300W=600W
Voltage	2.8A/5.5A
Current	110V/220V
Frequency	50-60Hz
Weight	13.7kg
Dimensions	15.9kg
Size	43x41x32cm
Capacity	51x50x38cm
Material	Stainless Steel

Feature

The handle is designed for ergonomic use, ensuring a comfortable grip during the printing process.

The pressure adjust knob allows you to control the pressure applied to the mug, ensuring optimal printing results.

The NTTH-2000 digital controller provides precise temperature and pressure control for consistent results.

The mug heater is designed for simultaneous transfer, allowing you to heat two mugs at once.

Application

The mug press machine is suitable for printing on various types of mugs, including ceramic, stainless steel, and aluminum. It is also used for mug heating. The machine is compact and easy to use, making it a great choice for small businesses and hobbyists.
