Microtec LZP 40-DH - 40x60cm / Dual Heating Lanyard Heat Press Machine

The Microtec LZP-40-DH is a professional-grade 40x60cm dual heating lanyard heat press machine. It is designed for high-volume production of lanyards, ID badges, and other promotional items. The machine features a robust stainless steel construction, a large 40x60cm heating area, and a dual heating system for faster and more uniform results. It also includes an auto-open function to protect the operator and the machine's components.

- **40x60cm Heating Area**
The machine features a large 40x60cm heating area, providing ample space for pressing lanyards, ID badges, and other promotional items. This size is ideal for high-volume production.
- **GY-06 Lanyard Heat Press**
The GY-06 is a professional-grade lanyard heat press machine. It is designed for high-volume production of lanyards, ID badges, and other promotional items. The machine features a robust stainless steel construction, a large 40x60cm heating area, and a dual heating system for faster and more uniform results. It also includes an auto-open function to protect the operator and the machine's components.
- **Auto-Open Functionality**
The machine features an auto-open function that automatically opens the heating platen after the pressing cycle is complete. This feature helps to protect the operator and the machine's components from heat damage.
