

Description

MTP series multifunctional rotary thermal transfer printing machine is designed for printing on various materials like paper, fabric, etc. It is a multifunctional machine that can print on various materials like paper, fabric, etc. It is a multifunctional machine that can print on various materials like paper, fabric, etc.

It is a multifunctional machine that can print on various materials like paper, fabric, etc. It is a multifunctional machine that can print on various materials like paper, fabric, etc.

It is a multifunctional machine that can print on various materials like paper, fabric, etc. It is a multifunctional machine that can print on various materials like paper, fabric, etc.

MTP series multifunctional rotary thermal transfer printing machine is designed for printing on various materials like paper, fabric, etc. It is a multifunctional machine that can print on various materials like paper, fabric, etc.

Feature

Control Panel: The control panel is equipped with a digital display and several buttons for easy operation. It allows the user to set the printing parameters and monitor the machine's status.

Printing Speed: The machine is designed for high-speed printing, allowing for efficient production. It can print at a speed of up to 100m/min, depending on the material and the printing parameters.

Roller: The machine features a high-quality roller that ensures consistent printing quality and prevents material damage.

Roller: The machine features a high-quality roller that ensures consistent printing quality and prevents material damage.

Specification

Model	MTP-1700	MTP-2500	MTP-3200
Printing Width	1.7m/2.5m/3.2m		

Multifunctional Oil Heating Rotary Thermal Transfer Machine

Available Printing Width: 1.7m(67")/
2.5m(98")/ 3.2m(126")

Application:

Flag, cloth, curtains, bedding, cushion etc
