

Description

OTO-24 is a flatbed continuous transfer printing machine designed for high production. It features a 60cm print width and is suitable for DTF printing and garment fusing. The machine is equipped with an infrared positioning system and adjustable infeed and outfeed tables.

Feature

High Production: OTO-24 is a flatbed continuous transfer printing machine designed for high production. It features a 60cm print width and is suitable for DTF printing and garment fusing.

Positioning System: OTO-24 is equipped with an infrared positioning system to ensure accurate printing and alignment of the design on the fabric.

Adjustable Tables: OTO-24 has adjustable infeed and outfeed tables to accommodate different fabric widths and types, ensuring a smooth and consistent printing process.

DTF Printing: OTO-24 is specifically designed for Direct to Film (DTF) printing, allowing for high-quality, vibrant prints on a variety of fabrics.

Garment Fusing: OTO-24 is also capable of garment fusing, which is used to bond the printed design onto the fabric, making it durable and long-lasting.

Easy Operation: OTO-24 is designed for easy operation and maintenance, with a user-friendly control panel and simple adjustment mechanisms.

Specification

Model	OTO-24
Capacity	24000kg
Power	7KW
Temperature	200°C
Accuracy	±0.5%
Voltage	220V
Current	32A
Frequency	50/60HZ
Weight	249KG
Dimensions	407KG
Volume	236×110×140cm
Weight	183×119×163cm
Compliance	CE
