

## Description

RTR series multifunctional rotary thermal transfer machine is designed for printing on various materials like paper, fabric, leather, etc. It is a compact and efficient machine that can be used in small to medium scale businesses.

The machine has a maximum printing width of 16.5 cm and a maximum printing length of 100 cm. It is suitable for printing on materials with a thickness of 0.1 mm to 1.5 mm.

The machine is equipped with a digital display and control panel, which allows you to adjust the printing temperature, speed, and other parameters. It also has a safety lock to prevent accidental operation.

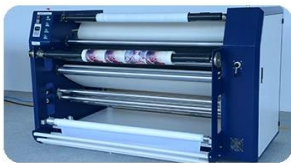

The machine is made of high-quality stainless steel and is easy to clean and maintain.

## Feature

**Digital Control Panel:** Allows you to adjust the printing temperature, speed, and other parameters.

**Rollers:** Made of high-quality stainless steel, suitable for printing on various materials.

**Emergency Stop Button:** Prevents accidental operation.

**Gear Mechanism:** Ensures smooth and accurate printing.
