Auto Open T-shirt Heat Press

with Slide-out Press Bed

Model No.: SENKO-15A/ SENKO-20A

- Machine Type: Auto Release, Clamshell
- Platen Size: 15"14.5"38"38cm/ 16"20"40"50cm

Digital Controller:
2000 x 1500 mm table
temp control

Comfortable Handle:
Ergonomic handle design

Electromagnet:
Electromagnet releases parts with one manual release

Hand Trimmer:
Hand trimmer for models, accessories for convenience

Gas Spring:
Gas spring for easy access table opening

High Pressure:
High pressure for 1-inch feed transfer

Drawer:
Draw-out accessories holder to keep things organized

The SENKO-15A/20A is the simple design of SENKO auto open heat press. This Simple SENKO Heat Press is also perfect for T-shirt sublimation business.

This sublimation printing machine has been crafted with the highest grade components professionally. The automatic function allows you hands free during the whole press working. With the rotating wheel, it is easy for you to make the pressure setting before, during or after your heat press processes. As soon as the pressure has been adjusted, the balance springs on the top platen provides even pressure throughout – which ensure good transfer quality (always on our own, and without any pressure spots). Once the timer expires, this auto-operating simple panko heat press will open itself automatically, that means you have more enough time for other tasks.

Each Signle Copper sheathed heating rod is tested before it is cast in an aluminum alloy or Mica Sheet. These heating rods are comparable to those found in industrial ovens that heat up quickly, work efficiently and last many years. With our industrial quality heat castings, you can get five years worry free warrant.
