

## Description

Microtec 4-in-1 Multifunctional Pet Bowl Heat Press - 4-in-1 Multifunctional Pet Bowl Heat Press: A multifunctional pet bowl heat press machine designed for printing custom designs on pet bowls. It features a red frame, a black heat platen, and a digital display for temperature control. The machine is capable of printing on various materials and sizes of pet bowls.

# Multifunctional Pet Bowl Heat Press

Model No. : CPO-10

- 4 Different Sizes Available
- Easy-exchange Heat Platen
- Adjustable Pressure Design

## Feature

**4 Different Sizes Available:** The machine is designed to accommodate four different sizes of pet bowls, ranging from small to large, making it a versatile tool for pet owners and businesses.

**Easy-exchange Heat Platen:** The machine features a heat platen that can be easily removed and replaced, allowing for quick and convenient changes between different bowl sizes or materials.

**Adjustable Pressure Design:** The machine has an adjustable pressure design, which allows users to control the amount of pressure applied during the printing process, ensuring optimal results for different bowl materials.

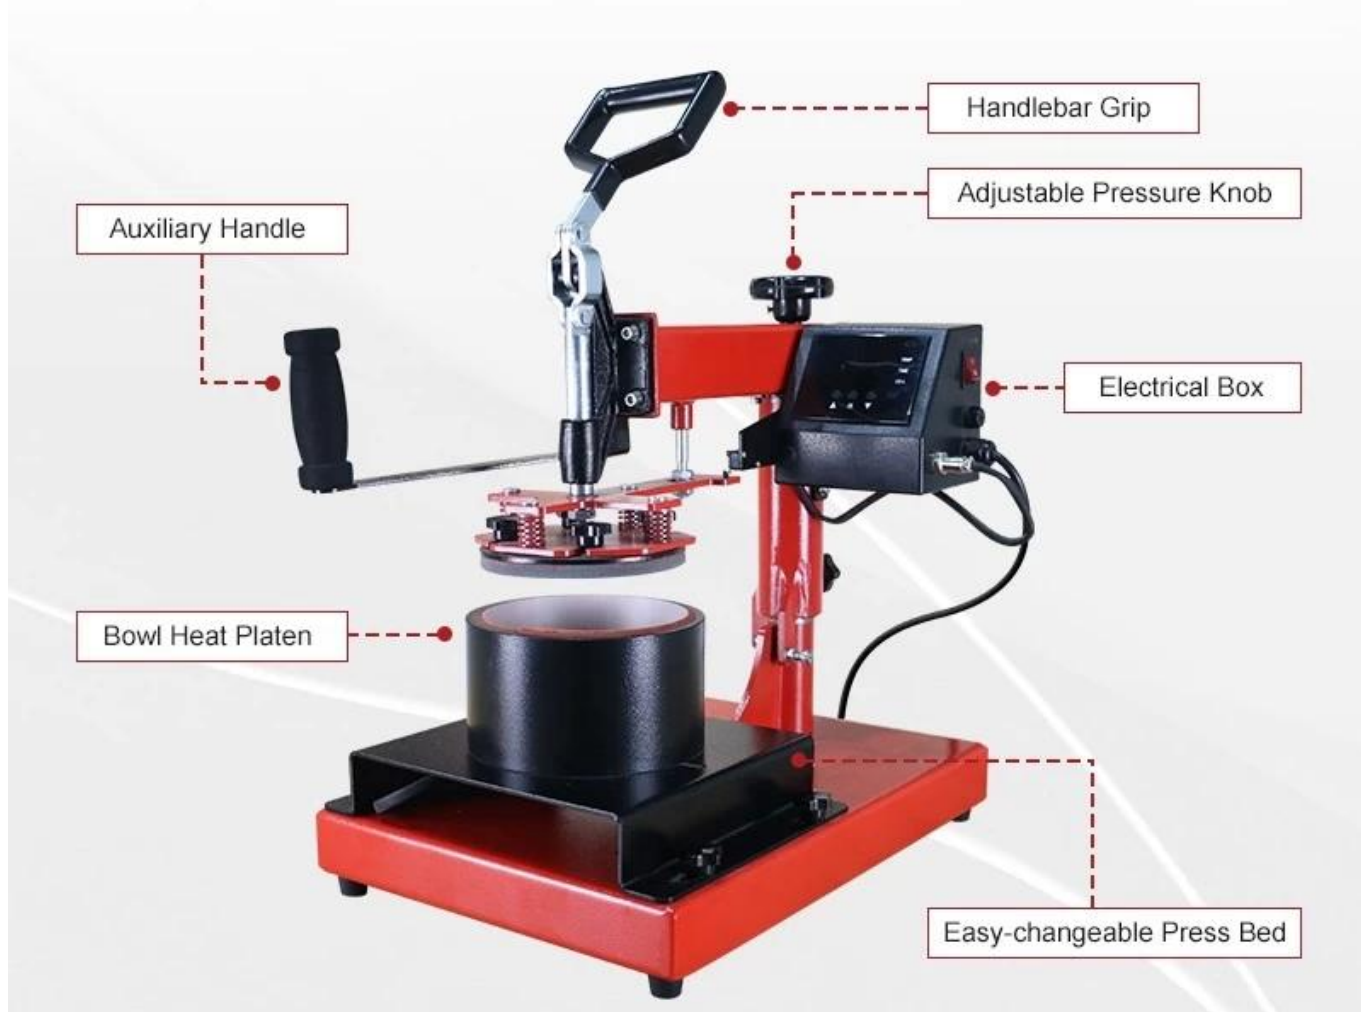

**Digital Temperature Control:** The machine is equipped with a digital display and control panel, enabling users to precisely set and monitor the temperature for each print job.

**Wide Material Compatibility:** The machine is capable of printing on a wide range of materials, including ceramic, porcelain, and stainless steel, providing flexibility in design options.

**Compact and Portable Design:** The machine has a compact and portable design, making it easy to store and transport, ideal for use in home workshops or outdoor settings.
