UHP-24MS 16"X24"40x60cm

ROTATING FOUR-STATION

2 years for the whole machine

Heating plate 5 years

Pull-out bottom plate

Digital Controller

With electromagnet

Product Features

The machine is designed for high-precision heat treatment of various materials. It features a rotating platform that allows for uniform heating from all angles, ensuring consistent results. The digital controller provides precise temperature and time control, and the pull-out bottom plate facilitates easy loading and unloading of workpieces.

The machine is equipped with a powerful electromagnet, which is essential for the heat treatment of ferrous materials. The heating plate is made of high-quality ceramic, providing excellent thermal conductivity and durability.

The machine is compact and easy to operate, making it suitable for small-scale production or laboratory use. The digital display shows the current temperature, time, and cooling status, allowing for real-time monitoring of the process.

The machine is built with a sturdy frame and is designed to withstand heavy use. The rotating mechanism is smooth and quiet, ensuring a safe and efficient working environment.

Applications

UHP is widely used in various industries for the heat treatment of different materials.

- Tool steel
- MDF
- Cast iron
- Steel
- Aluminum

UHP 印刷機

UHP 印刷機は、最新の印刷技術を採用し、高品質な印刷を実現します。また、環境に優しい印刷を実現するための機能も搭載しています。

Microtec UHP 印刷機の詳細情報は、以下のリンクからご確認ください。

特徴

Microtec UHP 印刷機の特徴は、以下の通りです。

Microtec UHP 印刷機は、以下の機能を搭載しています。また、環境に優しい印刷を実現するための機能も搭載しています。

- 高品質な印刷を実現
- 2色印刷可能
- 5色印刷可能
- 5色印刷可能
- 6色印刷可能

Microtec UHP 印刷機の詳細情報は、以下のリンクからご確認ください。
