

FULLY AUTO

Dual Station Heat Press

XPDS-20B

XPDS - 15B

15" x 15" 38x38cm

XPDS - 15B is a fully automatic dual station heat press machine. It is designed for high-volume production of custom apparel and accessories. The machine features a large 15" x 15" (38x38cm) pressing area, allowing for a wide range of items to be pressed. It includes a laser positioning system for precise alignment, extra high pressure for deep impressions, and an auto open functionality for easy removal of the pressed item. The machine also has a left and right slider for flexible positioning and uniform heating for consistent results. An intelligence sensor is included to detect the presence of the item being pressed.

Features

- Laser Positioning System - Ensures precise alignment of the design on the item being pressed.
- Extra High Pressure - Provides deep, lasting impressions for high-quality results.
- Auto Open Functionality - Automatically opens the pressing area after the cycle is complete for easy removal of the item.
- Left & Right Slider - Allows for flexible positioning of the item on the pressing area.
- Uniform Heating - Ensures consistent heat distribution across the entire pressing area for even results.
- Intelligence Sensor - Detects the presence of the item being pressed to optimize the pressing cycle.
- 3-Stage Heating Process - The machine uses a 3-stage heating process (GY - 13) to ensure the design is properly set into the item.

PRODUCT HIGHLIGHTS

Manual & Auto Mode
Streamline Printing

Power-off Protection
Safety Lock Mechanism

Built-in Sensor
Hand-injury Prevention

Precise Alignment
Effortless Operation

15x15XPDS - 15B

XPDS - 20B is a high-speed, high-precision, and high-capacity digital printing machine. It features a 1.6kW laser source and a 600dpi resolution. The machine is designed for high-volume production of T-shirts and other apparel. It offers a wide range of colors and is easy to operate. The machine is also equipped with a safety lock mechanism to prevent hand injury.

Key Features

- T-shirt printing
- High-speed printing
- High-precision printing

Specifications

Microtec is a leading manufacturer of digital printing machines. The XPDS - 15B is a high-speed, high-precision, and high-capacity digital printing machine. It features a 1.6kW laser source and a 600dpi resolution. The machine is designed for high-volume production of T-shirts and other apparel. It offers a wide range of colors and is easy to operate. The machine is also equipped with a safety lock mechanism to prevent hand injury.
