

Description

Microtec DCH-900 is a digital heat press machine designed for T-shirt, plates, mugs, and caps. It features a digital display and a microcontroller for precise temperature control. The machine is compact and easy to use, making it ideal for small businesses and hobbyists. It includes a main unit and several optional heaters for different applications.

Digital Combo Heat Press

Model No.: DCH-800

Description: Economy Combo Heat Press for T-shirt, Plates (2 sizes), Mugs (4 sizes), Caps
Platen Size: 15"x15" (38x38cm)

Optional Heater:

Dia. 6-7.5cm Mug Heater, Dia. 7.5-9cm Mug Heater, 12oz & 17oz Mug Heaters, Dia. 12.6cm Plate Heater, Dia. 15.2cm Plate Heater, 9" 15.5cm Cap Heater

Feature

Temperature Control: DCH-900 features a digital display and a microcontroller for precise temperature control. The temperature can be set and monitored in real-time, ensuring consistent results.

Compact Design: The DCH-900 is a compact and easy-to-use machine, making it ideal for small businesses and hobbyists. It has a small footprint and is easy to store.

Wide Application: DCH-900 can be used for a wide range of applications, including T-shirt, plates, mugs, and caps. It is a versatile machine that can handle various materials.

Easy Operation: The DCH-900 is easy to operate and requires minimal maintenance. It has a simple interface and is designed for quick setup and use.

High Quality: The DCH-900 is built with high-quality materials and components, ensuring durability and long service life. It is designed to withstand heavy use.

Safe: The DCH-900 has safety features to protect the user and the machine. It includes a safety lock and a cooling fan to prevent overheating.

Temperature Accuracy: DCH-900 has a temperature accuracy of $\pm 5^{\circ}\text{C}$, ensuring consistent results. The digital display shows the current temperature and the set point.

Temperature Range: The DCH-900 can operate at a temperature range of 100°C to 200°C, covering most heat press applications. It is designed to handle a wide range of materials.

Power Consumption: DCH-900 has a power consumption of 1500W, which is suitable for most home and small business environments. It is designed to be energy-efficient.

Platen Size: DCH-900 has a platen size of 50mm, which is suitable for most heat press applications. It is designed to be versatile and handle various materials.

2-in-1 Design: The DCH-800 is a 2-in-1 design, combining a heat press and a mug press. It is a compact and easy-to-use machine that can handle both T-shirt and mug applications. It is designed to be a space-saving solution for small businesses and hobbyists.

Specification

Model	DCH-800/DCH-900
Material	Aluminum, Steel
Dimensions	15"x15"(38x38cm)
