1. The first step is to prepare the workspace. Ensure the mat is clean and free of dust.
 2. Next, select the design you want to apply. Place the design on the mat.
 3. Use the weeder to carefully remove the excess vinyl.
 4. Then, use the tweezers to lift and secure the delicate material.
 5. After that, use the spatula to lift the material cleanly.
 6. Finally, use the scraper to clean the mat and apply the designs.
 7. The last step is to cut the material with scissors.
