

UPLOAD YOUR CUSTOM GANGSHEET

Bring Your Unique Designs to Life
With Our High-quality DTF Transfers,
Works on Any Fabric / Color.

01

01. What is DTF? DTF (Direct to Film) is a printing process that allows you to create custom designs on a variety of fabrics and colors.

02. How does DTF work? DTF works by printing your design onto a special film, which is then transferred onto the fabric using heat and pressure.

03. What are the benefits of DTF? DTF offers high-quality prints, vibrant colors, and the ability to print on a wide range of fabrics and colors.

02

- **01. Design:** Create your custom design using a DTF printer. You can print on a variety of fabrics and colors, including black, white, and colored fabrics.
- **02. Transfer:** Transfer the design from the film to the fabric using heat and pressure. This process is done using a heat press or a similar machine.
- **03. Finish:** Once the design is transferred, you can finish the garment by washing it. This will help to set the design and make it more durable.
- **04. Quality:** DTF offers high-quality prints with vibrant colors and a soft feel. This makes it a great choice for custom apparel.
- **05. Versatility:** DTF can be used to create a wide range of custom apparel, including t-shirts, hoodies, and hats. This makes it a versatile option for businesses and individuals.

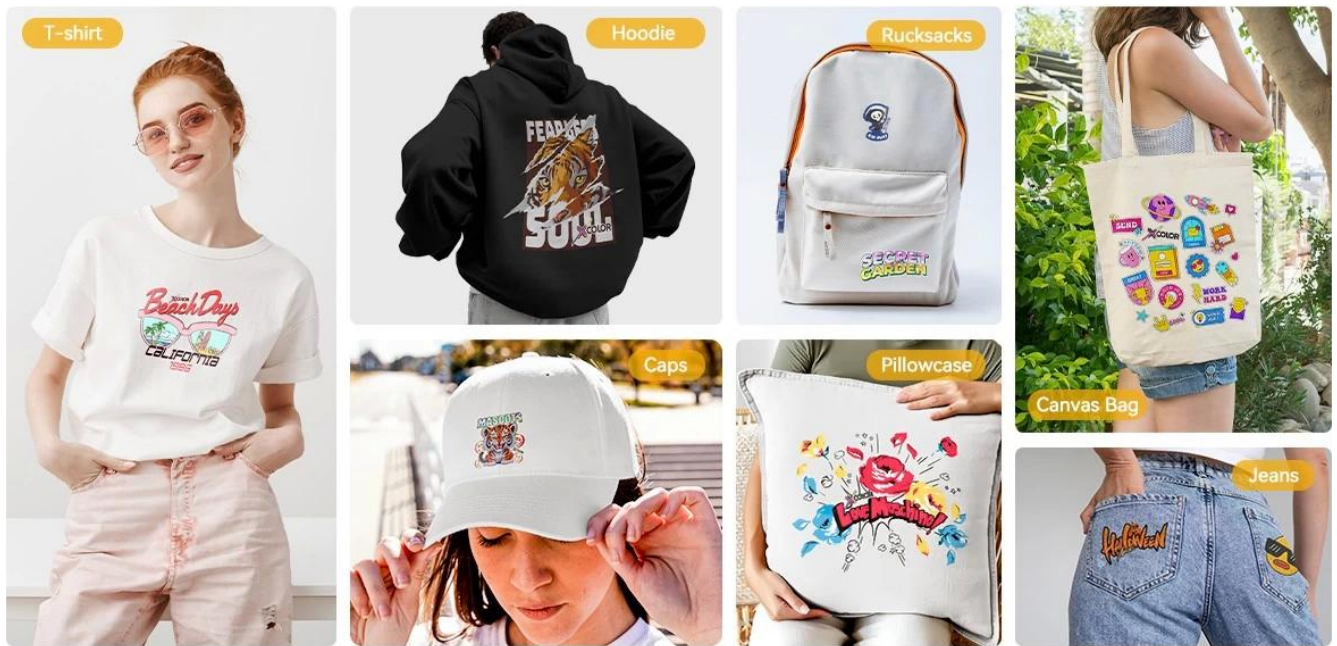

4 STEPS TO CUSTOM YOUR DESIGN

- 板厚: 30cm / 50cm / 60cm / 120cm
- 重量: 約 100 kg
- 厚さ: 75μm
- 使用温度: 150-160 ° C (302-320 ° F)
- 使用時間: 10-15 分
- 使用場所: 室内 外 両方 可能 (DTF 印刷 機 等 可 使 用)
