

Description

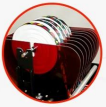

Microtec ODA LRP-40-DH is a new product designed to work with Lanyard Heat Press. It is a high-speed, automatic feeding device that can process up to 40 lanyards per hour. The device is designed to be used with a heat press to create custom lanyards. It features a large, adjustable feeding mechanism that can handle lanyards of various widths and lengths. The device is also equipped with a control panel that allows the user to adjust the feeding speed and the pressure applied during the pressing process. The LRP-40-DH is a reliable and efficient solution for creating custom lanyards in a professional setting.
