

Description

Microtec FSTM Pneumatic Double Station Shuttle Heat Press. 24" x 48"(60x120cm) 2 station heat press. 60x120cm. High pressure, double plate, cost-effective.

Industrial Large Format Heat Press 60x120cm

- High Pressure
- Double Plate
- Cost-effective

FSTM is a professional manufacturer of heat presses. The FSTM Pneumatic Double Station Shuttle Heat Press is a high-quality, industrial-grade machine designed for large format printing. It features a double plate design for productive efficiency and high pressure top-down with a self-leveling system. The machine is built with a heavy-duty frame and locking casters for easy mobility. It is a cost-effective solution for businesses looking to expand their printing capabilities.

Features:

- Air-operated automatic large format;
- Double plate design for productive efficiency;
- High pressure top-down with self-leveling system;
- Heavy duty locking casters for easy movability.

Specification

Model	FSTM
Material	Stainless Steel
Control System	PLC
Dimensions (mm)	24"x48" (60x120cm)
Temperature	230°C
Temperature Fluctuation	±5°C
Voltage	220V AC / 220V 3P / 380V 3P
Weight	8kg/c
Capacity	4.5kg/c
Internal Dimensions (mm)	189*152*150cm
External Dimensions (mm)	199*162*170cm
Weight (kg)	405KG
Max Weight (kg)	685KG

Application

60x120cm stainless steel table for laboratory or industrial use.
