

## Description

Auto Heat Press - MAX CLAM Heat Press! MAX CLAM Heat Press is a professional heat press machine. It is designed for high-quality printing on various materials. The machine features a large platen and a powerful heating system. It is easy to use and maintain. The machine is suitable for both small and large businesses. It is a reliable and efficient printing solution.

The machine is made of high-quality materials. It is durable and long-lasting. The machine is designed for safety and ease of use. It has a wide opening angle for easy loading and unloading. The machine is suitable for printing on a variety of materials, including t-shirts, hoodies, and bags. It is a versatile and reliable printing machine.

**Auto Open Heat Press with Pluggable Electric Box**

Model No. : TC-15/ TC-20  
Platen Size: 38x38cm/ 40x50cm

- Changeable Electric Box and Heat Platen
- More Safe and Easy Maintenance
- Auto Open with Wide Opening Angle

CE ISO 9001

Pluggable Electric Box

## Feature

Auto Open: The machine has an auto-open function that allows the platen to open automatically after the printing process is complete. This feature saves time and reduces the risk of injury.

Wide Opening Angle: The machine has a wide opening angle, which makes it easy to load and unload materials. This feature is particularly useful for large items like bags and hoodies.

Changeable Electric Box: The machine has a changeable electric box, which allows you to use different power sources. This feature is useful for businesses that have different power requirements.

Easy Maintenance: The machine is designed for easy maintenance. It has a simple and intuitive control panel. This feature makes it easy for anyone to use the machine.

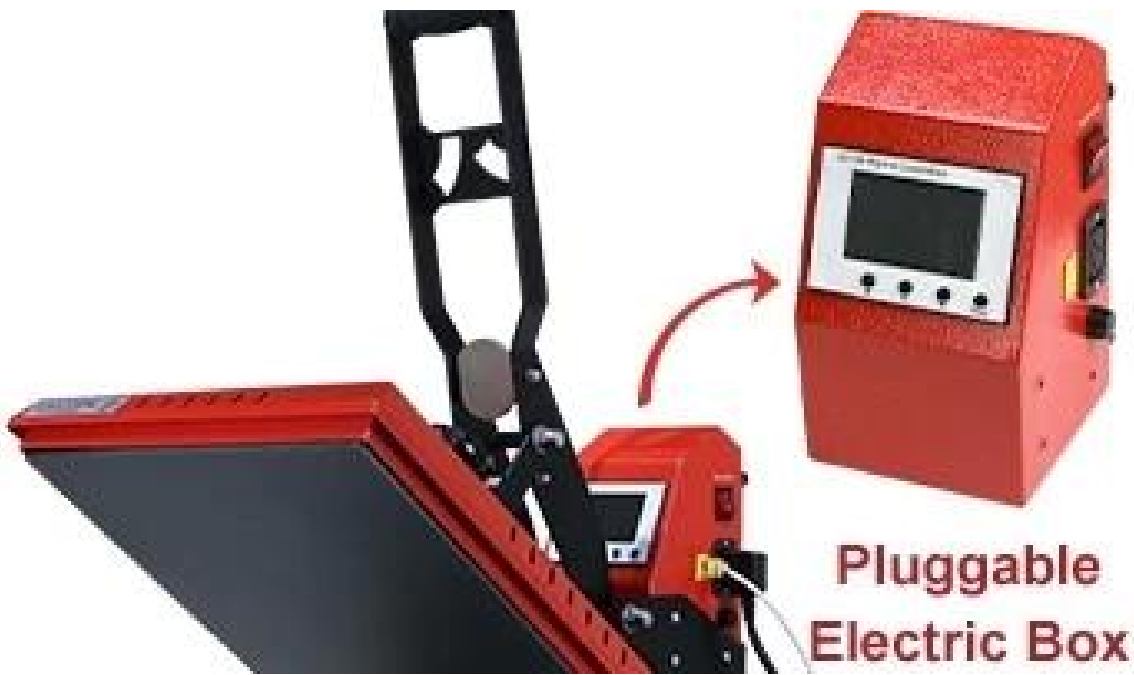

High Quality: The machine is made of high-quality materials. It is durable and long-lasting. This feature ensures that the machine will provide reliable and consistent results.
