

[20oz Sublimation Skinny Tumbler](#) is designed for premium sublimation printing, ensuring your designs come out bright and vibrant. Perfect for personal or professional use, this tumbler is both stylish and practical.

### **Premium Sublimation Coating**

Microtec tumblers are ready for sublimation printing using either a [tumbler heat press machine](#) or a [sublimation oven](#). The coating ensures your prints come out bright and clear, not foggy.

### **Completely Straight Design**

These tumblers are completely straight, not tapered, making them ideal for full wrap sublimation prints using a mug tumbler press machine or a sublimation oven.

### **304 Food-grade Stainless Steel Materials**

Made from 18/8 304 food-grade stainless steel, these double-walled tumblers keep your drinks hot or cold for hours, ensuring durability and performance.

### **Perfect for Custom Gifts**

These sublimation blank tumblers are perfect for creating customized gifts. Whether for Christmas, Halloween, New Year, birthdays, or any holiday, you can add any design to make a unique and personal gift.
