

Description

Microtec COS-HOBBY A4 heat press with a slide-out under plate is a lady-friendly solution, offering a balance of compact design, advanced digital controls, and high-quality heat elements. This heat press is designed to meet the needs of users seeking convenience, precision, and versatility in their heat transfer projects.

Microtec [T-shirt heat press machine](#), it adopts high quality heat elements. The heat platen is with higher copper content and teflon coating, also passes electrostatic tests & breakdown test, which helps the [heat press machine](#) with more even heat distribution and longer life.

Feature

NTTE-2421WR Digital Controller: The digital display enhances visibility and allows users to easily adjust settings according to their needs. Additionally, users have the flexibility to choose temperature display in degrees Fahrenheit or Celsius.

Slide-out Lower Platen: The heat press is equipped with a slide-out under base, providing a practical solution for placing materials into the press away from the heat.

Compact Design: The COS-HOBBY A4 heat press is crafted with a focus on user convenience, especially for ladies. Its small and lightweight design ensures easy handling and operation.

Lady-Friendly Design: The A4 size of this heat press makes it ideal for small-scale projects and detailed work. Its compact size ensures efficient use of space, making it suitable for home-based businesses, hobbyists, and individuals with limited workspace.

Specification

Model No.	COS-HOBBY
Machine Type	Manual, Slide-out Under Plate
Platen Size	9"x13" (23x33cm)
Controller	NTTE-2421WR Digital Controller
Printable Articles:	Up to 10mm Thickness
Opening Angle:	30 degrees
Maximum Temp.	225°C
Temperature Accuracy	±0.5%
Time Range	0-999 Seconds
Power	0.8KW/ 1.0KW

Voltage	220V/ 110V
Frequency	50-60Hz
Gross Weight	27kg
Packing Size	62x42x44cm

Application

The COS-HOBBY A4 heat press accommodates a variety of materials, making it suitable for a range of heat transfer applications. Whether working with fabrics, papers, or other heat-sensitive materials, this heat press offers versatility in its usage.
