BEX-20 Auto Swing Auto Open Heat Press - 16" x 20" (40 x 50 cm)

Elevate your heat transfer operations with the BEX-20 Auto Swing Auto Open Heat Press, designed for efficiency, safety, and versatility. Ideal for professionals in the sublimation printing industry, this press offers a substantial platen size and user-friendly features to streamline your workflow.

Key Features

- **Auto Swing and Auto Open Mechanism:** The BEX-20 features an automatic swing-away design, providing a spacious workspace for precise alignment of transfer items. The auto-open function prevents overheating, ensuring consistent and high-quality results.
- **Generous Platen Size:** Equipped with a 16" x 20" (40 x 50 cm) platen, this press accommodates a wide range of substrates, including T-shirts, puzzles, mouse pads, metal boards, fridge magnets, coasters, slippers, bags, and sublimation cushions, especially those up to 58 mm in thickness.
- **Advanced Digital Control:** The GY-06 digital controller offers precise time and temperature settings, enhancing operational efficiency and ensuring consistent transfer quality.
- **Enhanced Safety Features:** Designed with safety in mind, the BEX-20 includes an emergency stop function to prevent accidents and an anti-burn protective cover on the top platen, safeguarding users from potential burns.

- **Adjustable Pressure Settings:** Easily modify pressure levels before, during, or after heat transfer tasks using the convenient rotating knob, allowing for optimal pressure adjustments based on specific project requirements.
- **User-Friendly Mobility:** Four handles at the base facilitate safe and effortless movement of the press, enhancing portability within your workspace.
