

Description

Premium DTF printing ink can assist in the precision, speed, and stability of your DTF printers in maximums. Special formula for exceptional bright and clean colors works with high flexibility and stretchability for a broad assortment of branded printheads in the market.

Cost-effective Options

Water-based pigment ink with great fluency in printing, high ink color development rate, and less dosage. Direct sourced from factory elevates your profitable value.

Bright & Vibrant Colors

Bright & Vibrant colors make your business outstanding. With ICC color management technology, the effect is more delicate and natural, and the image reproduction is high. The chromatogram is complete.

High Transfer Rate

The color can still be bright after 40 times of washing & rubbing test. Color fastness after printing reaches level 4 not easy to fade, long color preservation time.

Eco-friendly Materials

For it has met the standard of REACH, SVHC 211, RoHS, the ingredients are safe for use on graphics without hazarding substances for skin.
