DTF/DTP  
ink

## Premium UV DTF Ink - Vibrant, Durable, and Eco-Friendly

Elevate your printing capabilities with our **Premium UV DTF Ink**. Crafted for high precision and fast printing, this ink offers **bright and vibrant colors** that will make your designs pop. Specially formulated for **Direct-to-Film (DTF)** printing, it provides outstanding color reproduction, exceptional flexibility, and excellent stretchability, ensuring **high-quality prints** every time.

### Key Features

- **Bright & Vibrant Colors:** The ink features a specially designed formula for **exceptionally bright and clean colors**, enhancing the look of your prints. Whether you're printing for apparel or other materials, this ink ensures rich, high-quality colors.
- **High Transfer Rate:** The ink boasts **high color transfer efficiency**, ensuring your prints maintain their **vibrancy** even after **40 washes and rub tests**. Achieve **level 4 color fastness**, meaning your prints will stand the test of time without fading.
- **Eco-Friendly Materials:** The ink meets international safety standards, including **REACH, SVHC 211, and RoHS**. Safe for both your products and your skin, it ensures that you're using an **eco-friendly** product with **no hazardous substances**.
- **Cost-Effective:** Water-based pigment ink offers **great fluency** in printing, achieving high **color development** with minimal ink usage. Sourced directly from the factory, this ink provides exceptional value and supports your **business profitability**.
- **Guaranteed Quality:** With an **8-month quality guarantee for white ink** and a **1-year**

**guarantee for colorful inks**, you can be confident that you are receiving premium ink for consistent, reliable results.

**MICROTEC DTF INK** Environmentally friendly and non-toxic

- Vivid and saturated colors**  
High-concentration pigments are used to make the colors more saturated and the patterns more three-dimensional, which can be perfectly presented on both dark and light-colored fabrics.
- Excellent adhesion**  
After multiple washing and pulling tests, the pattern still does not fade or crack, and is truly durable.
- Stable printing performance**  
Ultra-low ink flying, no head jamming, suitable for mainstream print heads such as I3200/4720, and stable printing for a long time.
- Quick drying formula**  
When used with DTF special powder and film, it dries immediately after thermal transfer, greatly improving production efficiency.

## Specifications

- **Quantity:** 1000ml per bottle
- **Colors Available:** Black, Cyan, Magenta, Yellow, White, Orange, Red, Blue, Green
- **Ironing Temperature:** 130-160°C
- **Quantity per Carton:** 20 bottles per carton
