

Description

The P2 Manual Heat Press machine is a part of the SHP series, designed to offer an economical solution for heat transfer applications. This clamshell heat press boasts user-friendly features and enhanced functionality to meet the diverse needs of users.

The clamshell design incorporates an ergonomic handle, facilitating low-pressure release and effortless opening and closing of the heat press. This feature adds to the overall user convenience during operation. Meantime SHP series offers flexibility with the option to choose between manual or auto-open configurations. This adaptability allows users to select the mode that best suits their specific requirements.

SHP Manual Heat Press machine stands out for its economic design, user-friendly features, and enhanced safety measures. Whether opting for manual or auto-open configurations, users can enjoy the flexibility and reliability needed for efficient heat transfer processes across a range of applications.

SHP Manual Heat Press Machine

- Model No.: SHP-LP2
- GY04 Digital Controller
- Most Economic
- CE Approved

Feature

Ergonomic Handle: The clamshell design incorporates an ergonomic handle, facilitating low-pressure release and effortless opening and closing of the heat press. This feature adds to the overall user convenience during operation.

GY-04 Digital Controller: Equipped with a GY-04 digital controller, this manual heat press machine ensures simple and efficient operation. The LED display enhances visibility, making it suitable for operation in low-light working environments.

Manual or Auto Open Options: The SHP series offers flexibility with the option to choose between manual or auto-open configurations. This adaptability allows users to select the mode that best suits their specific requirements.

Slide-Out Bed: Users can opt for a slide-out bed design, adding convenience to the transfer process. The

slide-out feature streamlines the workflow and simplifies the placement and removal of items during heat transfer.

Upgraded Heating Plate and Element: The heat press machine incorporates upgraded heating plates and elements to prevent uneven heat distribution and potential failures. This ensures consistent and reliable performance, resulting in high-quality heat transfers.

Features:

- * Solid steel welded framework
- * Digital Temperature&Time Control
- * Baked with Teflon coating
- * Scratch-resistant
- * Hi-Tech ABS main box & Molded Heat Platen
- * Automatic Alarm, Temperature&Time recycle

Specification

Model No.	SHP-15LP2/ SHP-20LP2/ SHP-24LP2
Machine Type	Manual, Clamshell
Platen Size	15"x15"/ 16"x20"/ 16"x24" (38x38cm/ 40x50cm/ 40x60cm)
Controller	GY-04 Digital Time & Temp. Control
Printable Articles	Heat transfer vinyl, sublimation T-shirts, sportswear etc
Opening Angle	50 Degrees
Gas Spring Control	Yes
Voltage	120V/ 220V
Power	15: 1.5kw; 20/24: 1.6KW/ 1.8KW
Time Range	0-999 Sec.
Maximum Temp.	225 C

Packing Size
Gross Weight

77x47x51cm/81x61x53cm/78x72x53cm
36kg/ 47kg/ 53kg

Application:
