

## Description

The P2 Manual Heat Press machine is a part of the SHP series, designed to offer an economical solution for heat transfer applications. This clamshell heat press boasts user-friendly features and enhanced functionality to meet the diverse needs of users.

The clamshell design incorporates an ergonomic handle, facilitating low-pressure release and effortless opening and closing of the heat press. This feature adds to the overall user convenience during operation. Meantime SHP series offers flexibility with the option to choose between manual or auto-open configurations. This adaptability allows users to select the mode that best suits their specific requirements.

SHP Manual Heat Press machine stands out for its economic design, user-friendly features, and enhanced safety measures. Whether opting for manual or auto-open configurations, users can enjoy the flexibility and reliability needed for efficient heat transfer processes across a range of applications.

# SHP Manual Heat Press Machine

- Model No.: SHP-LP2
- GY04 Digital Controller
- Most Economic
- CE Approved

## Feature

**Ergonomic Handle:** The clamshell design incorporates an ergonomic handle, facilitating low-pressure release and effortless opening and closing of the heat press. This feature adds to the overall user convenience during operation.

**GY-04 Digital Controller:** Equipped with a GY-04 digital controller, this manual heat press machine ensures simple and efficient operation. The LED display enhances visibility, making it suitable for operation in low-light working environments.

**Manual or Auto Open Options:** The SHP series offers flexibility with the option to choose between manual or auto-open configurations. This adaptability allows users to select the mode that best suits their specific requirements.

**Slide-Out Bed:** Users can opt for a slide-out bed design, adding convenience to the transfer process. The

slide-out feature streamlines the workflow and simplifies the placement and removal of items during heat transfer.

**Upgraded Heating Plate and Element:** The heat press machine incorporates upgraded heating plates and elements to prevent uneven heat distribution and potential failures. This ensures consistent and reliable performance, resulting in high-quality heat transfers.

### Features:

- \* Solid steel welded framework
- \* Digital Temperature&Time Control
- \* Baked with Teflon coating
- \* Scratch-resistant
- \* Hi-Tech ABS main box & Molded Heat Platen
- \* Automatic Alarm, Temperature&Time recycle

### Specification

<b>Model No.</b>	SHP-15LP2/ SHP-20LP2/ SHP-24LP2
<b>Machine Type</b>	Manual, Clamshell
<b>Platen Size</b>	15"x15"/ 16"x20"/ 16"x24" (38x38cm/ 40x50cm/ 40x60cm)
<b>Controller</b>	GY-04 Digital Time & Temp. Control
<b>Printable Articles</b>	Heat transfer vinyl, sublimation T-shirts, sportsware etc
<b>Opening Angle</b>	50 Degrees
<b>Gas Spring Control</b>	Yes
<b>Voltage</b>	120V/ 220V
<b>Power</b>	15: 1.5kw; 20/24: 1.6KW/ 1.8KW
<b>Time Range</b>	0-999 Sec.
<b>Maximum Temp.</b>	225 C

**Packing Size**

77x47x51cm/81x61x53cm/78x72x53cm

**Gross Weight**

36kg/ 47kg/ 53kg

## Application:
