

## Description

### MP-160 Double Tumbler Mug Heat Press

The MP-160 Double Tumbler Mug Heat Press is a versatile and efficient solution for applying digital images onto various mugs and tumblers. Designed for high-volume operations, this machine allows for simultaneous printing on two mugs or one large tumbler, enhancing productivity and versatility in your printing tasks.

## Key Features

- **Double-Station Design:** Equipped with two independently controlled mug heaters, the MP-160 enables simultaneous printing on two standard mugs or one 20oz/30oz tumbler, significantly boosting production efficiency.
- **Versatile Compatibility:** This press accommodates a wide range of mug sizes, including 1.5oz, 2.5oz, 6-9oz, 11oz, 12oz, 17oz, and 20-30oz tumblers, making it a flexible choice for various sublimation projects.
- **Precise Digital Controls:** Featuring two NTTH-2000 digital time and temperature controllers, users can set and monitor temperature and time settings independently for each station, ensuring consistent and high-quality transfers.
- **Adjustable Pressure:** The machine includes adjustable supporting blocks and a pressure-adjustable hand wheel, allowing for optimal pressure settings to achieve superior sublimation results across different mug types.

- **High Temperature Range:** Capable of reaching up to 220°C (437°F), the MP-160 ensures effective transfer of vibrant and durable designs onto various substrates.
- **User-Friendly Operation:** Designed for ease of use, the MP-160 features intuitive controls and clear displays, making it accessible for both beginners and experienced users.

## Technical Specifications

- **Model Numbers:** MP-160A / MP-160B
- **Machine Type:** 2-in-1, Easy Heater Exchange
- **Mug Heater:** 2pcs 11oz mug heaters or 1pc 20-30oz tumbler heater
- **Controllers:** 2 x NTTH-2000 Digital Time & Temperature Controllers
- **Voltage:** 110V/220V
- **Power:** 600W (2 x 300W)
- **Time Range:** 120-220 seconds

- **Maximum Temperature:** 220°C (437°F)
  - **Temperature Accuracy:**  $\pm 0.5\%$
  - **Current:** 2.8A/5.5A
  - **Frequency:** 50-60Hz
  - **Net Weight:** 13.7kg
  - **Gross Weight:** 15.9kg
  - **Machine Dimensions:** 430mm x 410mm x 315mm
  - **Packing Dimensions:** 550mm x 515mm x 380mm
- 

## Included Accessories

- Adjustable supporting blocks
  - Pressure-adjustable hand wheel
  - Two NTTH-2000 digital controllers
  - Comprehensive user manual
- 

## Warranty and Support

Microtec offers a two-year warranty on the MP-160, covering defects in material and workmanship. Additionally, the company provides free lifetime technical support to assist users with setup, operation, and maintenance inquiries, ensuring uninterrupted heat transfer activities.

---

## Conclusion

The MP-160 Double Tumbler Mug Heat Press combines efficiency, versatility, and precision, making it an excellent choice for businesses and individuals involved in high-volume mug and tumbler printing. Its user-friendly design and robust features facilitate the creation of vibrant, customized products with consistent quality.
