

#### Description

**Microtec 2-in-1 Tumbler Mug Press machine** is a great tool for applying your digital images onto coffee mugs, travel mugs, beer steins, and more. The most outstanding feature is that it can help to transfer big-size tumbler, such as 20oz tumbler and 30oz tumbler. This high-efficient **2-in-1 Tumbler press Machine** is designed for high volume work. Its two mug heaters are controlled by two controllers so you can transfer two cups with this **mug press machine** at the same time. It is stable in terms of quality and 6, sturdy welded steel structure and easy to adjust.

Its main features include:

**Double-station design:** This mug press has a double-station design that allows two mugs to be printed simultaneously, increasing production efficiency.

**Versatile compatibility:** Microtec double tumbler press is compatible with a wide range of mugs, including ceramic mugs, glass mugs, stainless steel mugs, and 20oz, 30oz tumbler etc., making it a versatile heat transfer solution.

**Precise and reliable performance:** This mug press uses advanced heating technology to ensure precise and reliable heat transfer results, with high-definition and high-precision design transfers.

**Easy to use:** This mug press is user-friendly, with intuitive controls and an easy-to-read display that makes it easy for anyone to operate.
