

Description

ECH-200 Swing Heat Press Machine is a versatile heat press designed for efficiency and precision in sublimation printing. ECH-200 distinguishes itself with its unique up-and-down double heating platen, catering specifically to the seamless transfer of double-side sublimation blanks.

Feature

Dual Heating Platens:

The ECH-200 features an innovative up-and-down double heating platen design, allowing for simultaneous heat transfer on both sides of sublimation blanks. This capability enhances productivity and versatility in sublimation applications.

Efficient Sublimation Transfer:

Tailored for double-side sublimation blanks, this heat press streamlines the transfer process, ensuring even heat distribution and consistent results on both surfaces of the material.

Precision Temperature and Time Control:

Equipped with 2 GY-04 digital controllers, the ECH-200 allows precise adjustment of temperature and time, ensuring accurate and reliable sublimation transfer settings.

Sturdy Construction:

Built with durability in mind, the ECH-200 boasts a robust and reliable construction, providing stability during operation and contributing to its long-lasting performance.

Space-Saving Design:

The up-and-down double heating platen design optimizes space utilization, making the ECH-200 a compact yet powerful solution for businesses with limited workspace.

User-Friendly Operation:

Designed for ease of use, the ECH-200 ensures a user-friendly experience, catering to both seasoned professionals and those new to sublimation printing.

Enhance your sublimation printing capabilities with the ECH-200, a cutting-edge heat press that combines innovative design with practical functionality, providing a seamless solution for double-

side sublimation transfers.

Specification

Model No.	ECH-200
Machine Type	Up & Down Heating Platen, Swing Away
Platen Size	12"x15" (29x38cm)
Controller	2pcs GY-04 Digital Time & Temp. Control
Printable Articles	Up to 70mm Thickness
Voltage	120V/ 220V
Power	1800W
Time Range	0-999 sec.
Maximum Temp.	225 C
Temperature Accuracy	±0.5%
Packing Size	57x51x47cm
Gross Weight	36kg

Application

The ECH-200 features an innovative up-and-down double heating platen design, allowing for simultaneous heat transfer on both sides of sublimation blanks. This capability enhances productivity and versatility in sublimation applications, especially for polymer keyring, double side printing, also for T-shirts, Puzzles, Mouse Pads, Metal Boards, Fridge Magnets, Coasters, Bags, Cushions etc.
