

## Description

The upgraded APD Series Pneumatic High-Pressure Heat Press is offered with fully slide-out, quick-change lower platen. If you're into creating customized apparel, promotional items, or high-definition photo products, this automatic heat press is designed to deliver superior performance with consistent high pressure and precision.

APD Series are perfect for creating customized apparel, promotional items, and high-definition photo products. The APD Series Pneumatic High-Pressure Heat Press is your go-to solution for efficient, high-quality heat transfers.

This auto heat press is offered with [drawer style lower platen](#), features full threadability with large space for placing hoodies, sweatshirts, sweaters, t-shirts, etc easily.

Available size: 16"x20" (40x50cm)/ 16"x24" (40x60cm)

## Feature

**Features of the APD Series Pneumatic High-Pressure Heat Press:**

**Fully Draw-Out Mechanism**

One of the standout features of the APD Series is its fully draw-out mechanism. This allows the lower platen to slide out smoothly, providing easy access for loading and unloading materials. This feature not only saves time but also enhances safety by reducing the risk of burns.

**Consistent High Pressure and Precision**

The APD Series is designed to deliver consistent high pressure, ensuring every press is perfect. Precision is key in professional heat transfer, and this machine doesn't disappoint. Whether you're working with delicate fabrics or thick garments, the APD Series ensures even pressure distribution for flawless results.

**Full Threadability and Large Space**

Full threadability is another feature that sets the APD Series apart. This means you can easily position and align your materials on the lower platen, making it ideal for garments like hoodies, sweatshirts, and t-shirts. The large space available also accommodates bulkier items, ensuring versatility in your projects.
