

GIZMIX Eco-Friendly DTF Paper Sheets (A4/A3)

For businesses seeking efficient, sustainable direct-to-film printing solutions, GIZMIX DTF Paper Sheets deliver unmatched performance. Sold per sheet and available in A4 (8.3"×11.7") and A3 (11.7"×16.6") sizes, these 100% recyclable, biodegradable sheets combine eco-conscious design with professional-grade results—ideal for manufacturers, print shops, and brands prioritizing both quality and sustainability.

Core Advantages for Business Operations

Sustainable by Design

Crafted from plant-based, compostable fibers, each sheet is fully recyclable and biodegradable. Integrating them into your production line reduces environmental impact, aligning with green business initiatives and appealing to eco-aware clients.

Precision Printing, Every Sheet

Our high ink-loading layer ensures vibrant CMYK colors and crisp whites on every sheet, whether printing bold logos or intricate patterns. Consistent performance across all sheets minimizes waste and maintains product quality standards.

Instant Peel for Efficiency

Skip cooling waits—peel each sheet immediately after heat pressing. This cuts production time, streamlines workflows, and boosts output for high-volume orders.

Versatile Sizing Options

- A4 Sheets: Perfect for small-scale projects like accessories, patches, or children's apparel.
- A3 Sheets: Ideal for larger items such as t-shirts, hoodies, and home textiles.

Buy by the sheet to match exact production needs, reducing inventory costs.

You Can Decorate Your Products With Our DTP Transfers!

1

Strong adhesion, no falling off after long time use.

2

Washable, no color loss in water or sun exposure.

3

No wrinkles, suitable thickness, not easily scratched.

Technical Specifications (Per Sheet)

- Sizes: A4 (8.3"×11.7"), A3 (11.7"×16.6")
- Material: 100% recyclable, biodegradable plant-based fibers
- Print Surface: Matte (easy identification)
- Curing Temp: 257°F (125°C) (shaker machines); 284°F (140°C) (desktop ovens)
- Heat Press: 320°F (160°C) for 10-15 seconds (first press, medium pressure); 280°F (137°C) for 5 seconds (second press for softness)

PRINT RESPONSIBLY WITH DTP TRANSFERS 100% RECYCLABLE
