

## 3 LAYERS ANTI-SCALD DESIGN

### Description

Protect your hands while working on sublimation projects with these premium Heat Resistant Silicone Gloves. Designed for use with tumbler heat presses, sublimation ovens, and other heat transfer tools, these gloves offer excellent heat resistance, flexibility, and comfort. Made with high-quality silicone and cotton lining, they ensure both protection and comfort during handling.

- **Sublimation Printing:** Safely handle substrates like mugs, T-shirts, and tumblers during heat transfer processes.
- **Electronics Handling:** Protect your hands while working with circuit boards, batteries, and other electronic components that may emit heat.
- **Industrial Use:** Ideal for tasks requiring heat protection, such as soldering, welding, or operating machinery that generates high temperatures.

## RESISTANT TEMPERATURE UP TO 482 °F

The outer layer is thickened with anti-scalding silicone and has a built-in heat-insulating cotton cloth, which not only insulates heat but also absorbs sweat.

## Feature

- **Superior Heat Resistance:** Crafted to withstand temperatures up to 482°F (250°C), these gloves offer reliable protection against burns when handling hot items.
- **Comfortable and Durable Materials:** Made from high-quality polyester cotton, the gloves are breathable, odorless, and gentle on the skin, ensuring comfort during prolonged use.
- **Enhanced Grip:** The surface features thermostable silicone nodules that provide a non-slip grip, allowing for secure handling of heated objects.
- **Ambidextrous Design:** Designed to fit both left and right hands, offering versatility and ease of use.
- **Universal Fit:** Measuring 13inch\*4.4inch, these gloves are suitable for most adult hand sizes, accommodating both men and women comfortably.

## Machine Warranty

### Microtec's Commitment to Customer Support

At Microtec, our primary goal is to ensure that our customers can carry out heat transfer activities seamlessly. To support this, we offer **FREE SPARE PARTS** with qualifying orders, alongside the following comprehensive guarantees:

- **Lifetime Technical Support** for all heat press machines.
- **Two-Year Warranty** on the machine.
- **Five-Year Warranty** on fusions and welds.
- **Five-Year Warranty** on the heating plate.
- **Six-Month Warranty** on heaters for cups, plates, and caps.

We are dedicated to providing long-term reliability and peace of mind for your heat transfer operations.
