GIZMIX MUG HEAT PRESS MACHINE - Professional Mug & Bottle Sublimation Heat Press

The GIZMIX Mug Heat Press Machine is designed for efficient sublimation on mugs and bottles, perfect for both home use and hobbyists. With its compact design and durable build, this heat press ensures smooth and consistent transfers every time. The full-bleed heating element allows for even pressure and optimal heat distribution, making it ideal for 11 oz and 17 oz sublimation mugs. Easy to use and built to last, the GIZMIX Mug Heat Press is the perfect tool for creating custom mugs, personalized bottles, and more.

Feature

GIZMIX MUG HEAT PRESS MACHINE - Key Features

- **Versatile 11oz - 17oz Mug Heating Element:** Accommodates both 11oz and 17oz mugs, offering flexibility for various sublimation projects.
- **Effortless Setup:** No need for ovens, shrink wraps, or silicone wraps - get started quickly and easily with this user-friendly heat press.
- **Even Heat Distribution:** Achieves consistent, high-quality sublimation transfers with uniform heat, ensuring vibrant and durable results every time.
- **Durable & Stable Construction:** Built with a strong iron sheet outer, this heat press provides enhanced stability and lasting performance.
- **Long-Lasting Durability:** Features smooth insulation to minimize wear and tear, extending the lifespan of your machine for continuous use.

Perfect for hobbyists, small businesses, and DIY enthusiasts, this heat press is the ideal tool to take your sublimation projects to the next level!
