

GIZMIX Model-X Series Automated Heat Press: Revolutionizing Heat Transfer Printing

Introducing the GIZMIX Model-X Series, a state-of-the-art automated heat press machine designed to elevate your heat transfer printing experience. Combining advanced technology with user-friendly features, the Model-X Series ensures efficient and professional-grade results for both seasoned professionals and beginners.

Key Features

- **Upgraded Electric Motor:** The GIZMIX Model-X Series is equipped with an enhanced electric motor that seamlessly integrates automation with user-friendly controls. This innovation streamlines the printing process, making it more efficient and accessible.
- **Sleek Touchscreen Interface:** Featuring a 6-inch touchscreen, the machine offers intuitive navigation and control over printing settings, simplifying the operation and enhancing user experience.
- **Specialized Garment Compartment:** Designed with a dedicated clothing compartment, the Model-X Series accommodates various garment types, providing versatility for different printing needs.
- **Electric Push Rod Technology:** Experience stability and durability with the advanced electric push rod system, ensuring consistent pressure and alignment during the printing process.

- **Uniform Heating:** The 5cm-thick aluminum plate ensures even heat distribution, resulting in high-quality and consistent prints across different materials.
- **Large Threadability Space:** The Model-X Series is equipped with an extra-large threadability space, designed for ease of use and to accommodate all your printing needs, making garment placement quick and convenient.
- **Touchscreen Display:** The user-friendly large touchscreen interface offers seamless navigation, allowing you to store up to 3 custom settings for added efficiency. Easily adjust the pressure value from 0-8 and activate the auto-off function for automated convenience.
- **Two-Hand Start Switch:** Prioritize safety with the dual-hand start switch, ensuring secure operation and reducing the risk of accidents during use.

Available Sizes

- **15" x 15" (38 x 38 cm):** Ideal for smaller garments and accessories, offering precision and flexibility for detailed designs.
- **16" x 20" (40 x 50 cm):** Suitable for a wide range of garment sizes, providing versatility for various printing projects.

Benefits

- **Enhanced Efficiency:** The automated features and user-friendly design reduce setup time and simplify the printing process, increasing overall productivity.
- **Professional-Grade Results:** Achieve vibrant and durable prints with consistent quality, meeting the demands of professional printing standards.
- **Versatility:** The Model-X Series accommodates a variety of garment sizes and types, making it suitable for diverse printing applications.

Conclusion

The GIZMIX Model-X Series Automated Heat Press represents a significant advancement in heat transfer printing technology. Its combination of automation, user-friendly features, and versatile garment handling makes it an excellent choice for businesses and individuals seeking efficient and high-quality printing solutions.

Machine Warranty

Microtec's Commitment to Customer Support

At Microtec, our primary goal is to ensure that our customers can carry out heat transfer activities seamlessly. To support this, we offer **FREE SPARE PARTS** with qualifying orders, alongside the following comprehensive guarantees:

- **Lifetime Technical Support** for all heat press machines.
- **Two-Year Warranty** on the machine.
- **Five-Year Warranty** on fusions and welds.
- **Five-Year Warranty** on the heating plate.
- **Six-Month Warranty** on heaters for cups, plates, and caps.

We are dedicated to providing long-term reliability and peace of mind for your heat transfer operations.
