

Description

Our latest portable laser alignment tool Laser B is designed to revolutionize the heat transfer process with precise alignment, flexible adjustability, and versatile placement. Engineered for accuracy, adaptability, and ease of use, it ensures flawless positioning and seamless integration into any workspace, making it the perfect tool for professionals aiming for efficiency and precision.

Microtec Portable Laser Alignment Tool

- Precise Alignment
- Bright Accurate Cross-lines
- Reduce Errors When Aligning

Feature

Accurate Alignment

The new laser positioning device features advanced technology that ensures precise alignment during the heat transfer process. Whether working with intricate designs or projects that require meticulous detail, this device delivers stable and accurate laser positioning.

Free Bending

Equipped with a free bending capability, the device can be adjusted in any direction to meet diverse operational needs. Whether for horizontal or vertical applications, its flexibility ensures that laser markings align perfectly with the target position.

Versatile Placement

The device supports versatile placement options, allowing it to be conveniently mounted on a machine or placed on a worktable. This user-oriented design accommodates different working environments and production requirements. Enhance your heat pressing accuracy and efficiency with the Microtec Heat Press Laser Alignment Tool, your go-to solution for professional results every time.

Precise Accuracy

Fast & Accurate

Projects two precisely level and plumb lines for various leveling and alignment tasks.

Free Bending

Handy & Compact

Bent and adjusted in any direction, providing flexibility to meet different operational needs.

Versatile Placement

Portable & Easy Positioning

Conveniently positioned on a machine or a table, making it adaptable to various working environments.

Specification

Model No.	Laser B
Power	10W
Max.Height	320mm
Packing Size	14.3x12.2x28.1cm
Gross Weight	0.95kg
