CHOOSE THE SUITABLE SIZE FOR YOUR PROJECT

Heat Range: 0° - 500° F

Key Features

- **Superior Heat Resistance:** Designed to withstand temperatures up to 500°C / 937°F, this heat-resistant silicone pad offers outstanding thermal protection, ensuring safety during the heat transfer process.
- **Double-Sided Design:** Both sides of the pad are made from the same high-quality material, featuring fine particles that provide excellent grip, preventing slipping and protecting your work surface.
- **Easy to Clean & Portable:** Waterproof and washable, this pad can be easily cleaned by simply rinsing with water to remove dirt and stains. It is flexible and can be rolled up for convenient storage and transport, making it easy to take anywhere.
- **Durable and Long-Lasting:** Made with a poreless silicone material, this heat press mat will not expand or deform, even under extremely high temperatures, ensuring long-lasting use.
- **Multi-Functional:** This silicone pad is compatible with most popular heat press machines on the market. It is ideal for heat transfer vinyl (HTV) applications, sublimation, pressing, and ironing on various materials such as t-shirts, hoodies, banners, blankets, and more. Perfect for DIY projects and crafting enthusiasts!

Why Choose Our Heat Press Silicone Pad?

Whether you're working on custom t-shirts, banners, or any other vinyl projects, this heat press mat provides the reliability and safety you need for flawless results.

The double-sided, anti-slip surface and high temperature resistance make it a must-have accessory for any crafting or heat transfer project.

Make your crafting process safer and more efficient with our Heat Press Mat Replacement Silicone Pad - the ultimate solution for your heat press needs!
