

HEAT PRESS STAND

Cut production time by up to **40%**

Easy printing on T-shirt's front and back side.

Countertop version sits on a flat work surface
No assembly required.

MODEL: HPS-07

Description

Introducing the **HPS-07 Universal Heat Press Splitter Stand**, the ultimate accessory designed to boost efficiency and precision in your heat transfer operations. Crafted for compatibility with Microtec's UHP, MODEL-X, and SHP series, this splitter stand is a must-have addition for busy workshops and professional garment printing businesses.

Key Benefits

- **Multi-Series Compatibility:**

The HPS-07 works seamlessly with various heat press models, ensuring versatile application across your entire production setup. Enjoy the flexibility of using one reliable stand for multiple heat press systems.

- **Ergonomic & Time-Saving Design:**

Reduce manual handling and operator fatigue by securely suspending garments during heat transfers. This design streamlines the installation, removal, and repositioning process, ultimately accelerating your workflow and increasing productivity.

- **Double-Compression Prevention:**

Safeguard your finished transfers by keeping the garment's backside away from the heat zone. This crucial feature prevents accidental re-pressing and over-heating, maintaining the quality of your work.

- **Sublimation Ink Migration Barrier:**

Protect your prints with a built-in shield that prevents sublimation ink from seeping into the fabric's interior. This ensures that every print remains vibrant, smudge-free, and professional-

looking.

- **Durable & Space-Efficient Construction:**

Measuring 56.5 x 28.6 x 10.8 cm and weighing only 7.3 kg (net weight), the HPS-07 is built from robust materials that guarantee stability without occupying excessive workspace. Its lightweight design makes adjustments and repositioning effortless.

Product Specifications

- **Model Number:** HPS-07
 - **Stand Size:** 56.5 x 28.6 x 10.8 cm
 - **Packing Size:** 62 x 34 x 16 cm
