Description

LZP Lanyard Heat Press with Manual Feeding Device - High-Efficiency Heat Transfer for Webbing / Lanyard / Ribbon

Introducing the **LZP-40-DH Dual Heat Platens Lanyard Heat Press Machine** - a cutting-edge solution for high-quality, efficient lanyard printing. Designed for businesses and craft professionals alike, this advanced heat press combines innovative technology with user-friendly operation to deliver consistently superior results.

Features

Dual Heat Platens: Equipped with top and bottom platens for even heat distribution, ensuring vibrant, long-lasting prints on lanyards made from nylon, polyester, silk, and other materials.

Advanced Digital Control: Featuring two GY-06 Digital Time & Temperature Controllers, the LZP-40-DH offers precise control over the heat transfer process, with a clear digital display for accurate settings every time.

Manual Feeding and Alignment: The adjustable roller accommodates widths of 12mm, 20mm, and 25mm, providing versatility for various lanyard styles.

Efficient Heating System: Reaches up to 200°C in just 32 minutes, optimizing productivity without compromising quality.

Robust Build: With a power rating of 4.85KW and a durable design including dual gas springs, this

machine is engineered for reliability and long-term use in busy production environments.

LZP-40-DH

Why Choose the LZP-40-DH?

The LZP-40-DH is not only built for performance but also designed with your workflow in mind. Its precise temperature control and automatic features guarantee consistency, making it ideal for large-scale production as well as bespoke custom orders. This lanyard heat press is the perfect tool for businesses looking to elevate their branding and product offerings through high-quality, durable prints.

Optimize your production process and boost your competitive edge with the LZP-40-DH Dual Heat Platen Lanyard Heat Press Machine—a must-have for any professional printing operation.

Enhance your creative capabilities and drive your business forward with a machine that sets the standard in lanyard heat press technology.

Machine Warranty
