## Description

**Microtec MP-10A Tumbler Heat Press Machine: 4-in-1 Sublimation Mug Press for All Sizes (6oz-30oz)**

**Best-in-Class Versatility & Automation for Professional Mug Sublimation**

The **Microtec MP-10A Tumbler Heat Press Machine** is the ultimate 4-in-1 automated solution for vibrant, full-wrap sublimation printing on mugs, tumblers,

and drinkware of all sizes. Designed for efficiency and precision, this commercial-grade mug press supports **6oz-30oz containers**—including straight mugs, latte cups, and skinny tumblers—with four interchangeable heating elements for unmatched flexibility.

**6-10oz mugs, 12oz/17oz latte cups, and 20oz/30oz skinny tumblers** with dedicated heating elements. Perfect for businesses offering personalized drinkware across diverse styles.

### **Automated Heat Transfer Process**

**hands-free operation:** Set temperature (up to 400°F/204°C) and timer (1-999 seconds), then let the machine handle consistent, professional-grade transfers.

### **Crisp, Long-Lasting Sublimation Results**

Advanced PID temperature control and even heat distribution ensure **vibrant, fade-resistant prints** with no gaps or ghosting—ideal for full-wrap designs.

### **User-Friendly Design**

Intuitive digital controls and quick-swap heating elements make this mug press ideal for **beginners and high-volume shops** alike.

### **Cost-Effective Scalability**

Replace multiple single-size mug presses with one space-saving, multi-functional machine.

### **Why Choose the Microtec MP-10A?**

- **#1 Versatile Mug Press:** Serve clients with mugs, travel cups, latte tumblers, and promotional drinkware.

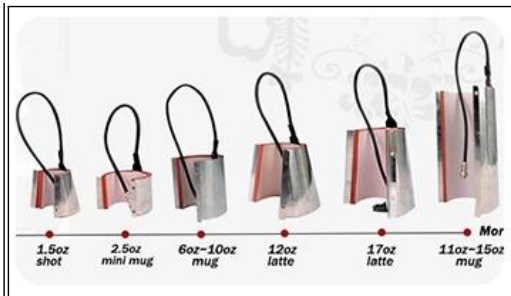

- **Time-Saving Automation:** Focus on design while the machine ensures perfect transfers every time.

**Ideal For:**

- Small businesses & home-based entrepreneurs
- Gift shops, promo product companies, and print-on-demand services
- Crafters and DIY enthusiasts creating custom drinkware

**Feature**

	<p>4 Pressure Adjust Knobs: Easily customize pressure settings for various mug sizes, ensuring optimal sublimation printing results. Rotate the knobs clockwise to increase pressure and counterclockwise to decrease it. For precise adjustments, place the mug on a silicone pad and press the handle down to find the ideal pressure.</p>
	<p>Strong Handle Grip: The heat press machine is equipped with a robust handle featuring an ergonomic design, ensuring a comfortable grip and reducing hand fatigue during use. This design facilitates easy pressing, allowing for efficient operation and consistent pressure application. The handle's sturdy construction contributes to stable and reliable performance, enhancing the overall user experience.</p>

**Interchangeable Mug Heater:** This heat press machine is compatible with four different-sized mug heaters, allowing you to customize a wide range of mug sizes and shapes. By simply swapping out the heating elements, you can efficiently switch between various mug types, enhancing the versatility of your printing projects. This feature is particularly useful for businesses or individuals aiming to offer diverse mug designs without investing in multiple machines.

**Super Big Mug Heater:** Specially designed for sublimation printing on 20oz, 30oz, and 40oz tumblers, this large-size mug heating element ensures consistent and high-quality results. Its spacious heating area accommodates various tumbler sizes, making it ideal for creating personalized beverage containers. Compatible with a range of tumbler designs, including those with handles and unique shapes, it offers versatility for diverse printing projects.

## Machine Warranty

### Microtec's Commitment to Customer Support

At Microtec, our primary goal is to ensure that our customers can carry out heat transfer activities seamlessly. To support this, we offer **FREE SPARE PARTS** with qualifying orders, alongside the following comprehensive guarantees:

- **Lifetime Technical Support** for all heat press machines.
- **Two-Year Warranty** on the machine.
- **Five-Year Warranty** on fusions and welds.
- **Five-Year Warranty** on the heating plate.
- **Six-Month Warranty** on heaters for cups, plates, and caps.

We are dedicated to providing long-term reliability and peace of mind for your heat transfer operations.
