

Description

[MTP Multifunctional Oil Heating Rotary Thermal Transfer Machine](#) is suitable for thermal & low temperature transferring. With stable temperature output, duplex oil tank and precise mechanical structure, it is very good for [torary thermal transfer](#). The adjustable air pressure control system is perfect for rotary transferring too.

The Roll-to-roll system makes printed materials in parallel without deflection, blanket can be separated from oil tank manually when power failure and also can do cut-piece heat transfer.

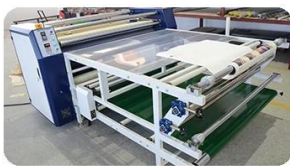

[MTP Multifunctional Oil Heating Rotary Thermal Transfer Machine](#) is applied for Garment sheets / Fabric rolls/ Flags/ Socks/ Blanket/ Curtain etc

Feature

Digital Controller: Seperate temperature control and tranform speed control; It is easy for you to set the time, temperature and speed. More accurate of the time and temp. display

Machine with blanket table:No cooling machine is needed and the blanket can be separated from the oil tank. Easy to do Roll to Roll or cut-piece

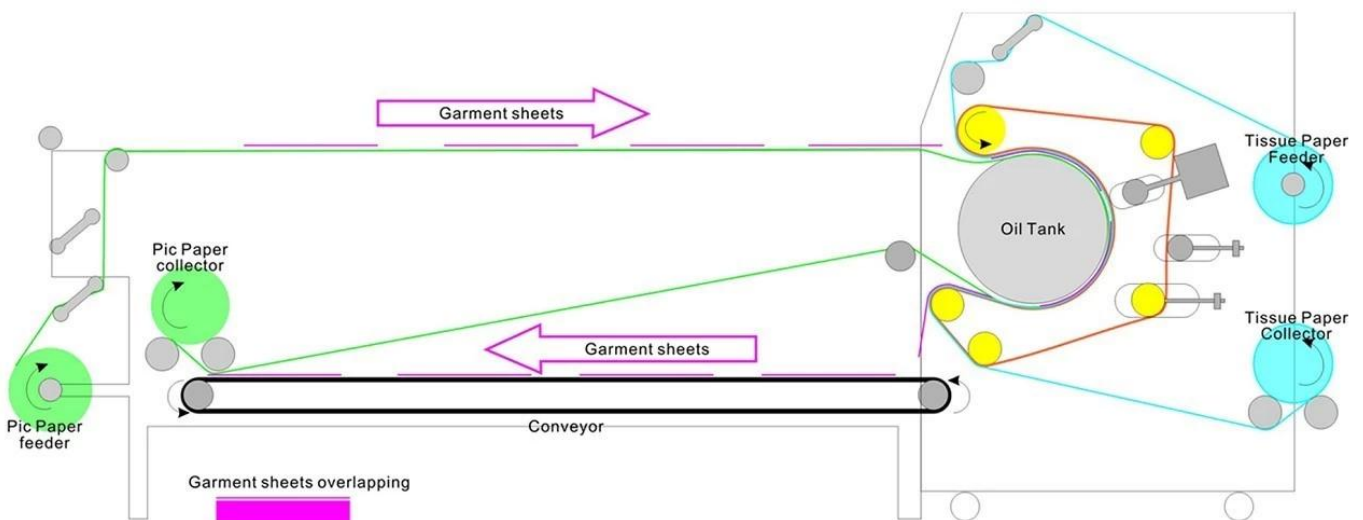

Emergency button: Stop machine when meet emergency

High-quality bearing: This bearing makes the press machine work smoothly and safely;
