

Description

The SHP-15/20/24LP3MS High Pressure Auto Open Heat Press is an excellent choice for those in the T-shirt sublimation transfer business.

Equipped with the user-friendly GY-05N digital controller, this auto-release heat press is a breeze to operate and set up. Its LED display remains visible even in dimly lit workspaces. Safety is a top priority during operation, as the emergency switch effectively guards against accidents and errors.

Featuring an ergonomic handle, this auto-open clamshell sublimation printing machine ensures a smooth and effortless release, minimizing pressure. Additionally, a built-in cooling mechanism on the top platen prevents potential safety hazards in your workspace. We've incorporated upgraded heating plates and elements into this high-quality press to eliminate uneven heat distribution and potential failures.

This popular heat press machine allows for heat transfers on a wide range of items. With all these features, it's no wonder that the clamshell press model has gained worldwide popularity.

Feature

Key features of the SHP-15/20/24LP3MS High Pressure [Auto Open Heat Press](#):

Auto Open Feature: The heat press is equipped with an auto open mechanism, which means that once the designated press time has elapsed, the upper platen automatically lifts, making it easy to remove your items without the need for manual lifting. This feature not only saves time but also ensures consistent and uniform results.

Slide-Out Under Plate: The heat press comes with a convenient slide-out under plate. This feature simplifies the loading and unloading process by allowing you to easily slide items in and out of the press. It minimizes the risk of accidental burns and improves overall efficiency in your workflow.

GY-05N Digital Controller: The GY-05N digital controller provides simple and precise operation. You can easily set the time, temperature, and pressure settings according to your specific heat transfer requirements. The LED display on the controller remains visible even in low-light conditions, ensuring accurate adjustments.

Emergency Switch: Safety is a top priority, and the heat press includes an emergency switch. This switch is designed to prevent accidents and errors during operation, offering peace of mind while you work.

Ergonomic Handle: The heat press features an ergonomic handle for effortless opening and closing. This design reduces the amount of physical effort required, making it comfortable to use for extended periods.

Upgraded Heating Plate and Element: The press incorporates upgraded heating plates and elements to ensure even heat distribution and minimize the risk of uneven heat points or equipment failures. This results in consistent and high-quality heat transfers.

Specification

Model No.	SHP-15LP3MS/ SHP-20LP3MS/ SHP-20LP3MS
Machine Type	Auto Release, Clamshell
Platen Size	15"x15"/ 16"x20"/ 16"x24" (38x38cm/ 40x50cm/ 40x60cm)
Under Plate	Fixed or Draw-out
Controller	GY-05 Digital Time & Temp. Control
Printable Articles	Up to 15-20mm Thickness
Opening Angle	50 Degrees
Gas Spring Control	Yes
Voltage	120V/ 220V
Power	1750W/ 1800W
Time Range	0-480 sec.
Maximum Temp.	225 C
Temperature Accuracy	±0.5%
Packing Size	79x49x58cm
Gross Weight	28kg

Application

SHP-LP3MS series sublimation heat press is suitable for any sublimtable or transferrable product. For example: T-shirts, MDF boards, metallic sheets, slippers, mouse pads, sportsware and other flat products.
