

Description

The SHP-15/20/24LP4MS [High Quality Auto Opening Heat Press](#) is ideal for T-shirt transfer business.

The GY-05N digital controller allows for simple operation and setup of the [auto release heat press](#). The LED display can also be visible in dark working place. During operation for the [economy manual T-shirt heat press machine](#), an emergency switch can prevent against accidents and mistakes perfectly.

With an ergonomic handle, this auto open clamshell sublimation printing machine can ensure low pressure release and makes opening and closing the heat press effortless. An fan on the top platen keeps the top of the [automatic heat press](#) cool and prevents a safety hazard in your workspace. We've used the upgraded heating plate and element in this [high-quality press](#) to prevent un-even heat points or any failures.

With just one such popular heat press machine, you are able to make heat transfer for a large variety of items. All the features above makes this [clamshell press model](#) very popular all over the world.

Feature

Ergonomic Handle: The ergonomic handle makes this high-quality heat press easy for anyone to make the operation.

GY-05N Digital Controller: The GY-05N digital controller provides full digital controls and display, and allows simple operation and setup for the large format sublimation printing machine.

Slide-out Press Bed: You can easily slide out the press bed with the handle, which makes it easier and more convenient for operation.

Strong structure: With strong structure, the economy small size heat press machine is with very stable quality and longer life time.

Specification

Model No.	SHP-15LP4MS/ SHP-20LP4MS/ SHP-24LP4MS
Heat Platen	15"x15"/ 16"x20"/ 16"x24" (38x38cm/ 40x50cm/ 40x60cm)
Maximum Temp.	225C
Temperature Accuracy	±0.5%

Time Range	0-480 Seconds
Power	1750W/ 1800W
Voltage	120V/ 220V
Gross Weight	44kg/ 56kg/ 59kg
Carton Size	78x48x57cm/ 80x63x55cm/ 83x74x54cm

Heat Platen Test:

Each Single Copper sheathed heating rod is tested before it is cast in an aluminum alloy or Mica Sheet. These heating rods are comparable to those found in industrial ovens that heat up quickly, work efficiently and last many years. With our industrial quality heat castings, you can get five years worry free warranty.

Quality Control on Finished Machine:

All Microtec heat presses are strictly tested under the following procedures before shipping out.

- 1) Turn on the machine, let it heating up to 200 degree Celsius.
- 2) Keep the temperature stay at 200 degree Celsius for at least 20 minutes.

Machine Warranty:

Microtec's main objective is to support all our customers, who can manage their heat transfer activities without interruption. So Microtec offers FREE SPARE PARTS with a quantitative order and the following guarantee:

- * Free lifetime technical support on all heat press machines.
- * Two-year warranty
- * Five-year warranty on fusions and welds.
- * Five-year warranty on the heating plate.
