

Description

Introducing the MAX-100, featuring a swing-away design that not only keeps you comfortably away from the high temperature of the heat platen, eliminating concerns about sweating during work, but also provides ample space on the lower plate for convenient material placement.

Presenting our proprietary brand, MaxArmour – the epitome of multifunctional swinging technology! It stands out as our most resilient and robust heat press, equipped with versatile functions for transferring images onto garments, mugs, plates, caps, and more. Boasting precise digital temperature and time control, coupled with a bright backlit display, this heat press ensures accuracy and ease of use. Experience rapid heating from startup to operation temperature, along with the convenience of quick-change heater attachments. Save time, energy, and money with this efficient solution.

Safety takes center stage with the MAX-100's swing-away head, offering easy access to the entire surface while shielding the operator from heat. The floating upper heat platen further ensures even alignment on various items, enhancing the overall user experience. Discover the ultimate combination of comfort, durability, and functionality with MaxArmour – your go-to choice for multifunctional swinging heat presses.

NEW MAXARMOUR HEAT PRESS WITH GREAT DISCOUNT

LESS IS MORE!

Feature

MaxArmour Swing-Away Heat Press Machine Features:

	Swing Away Handle: The MaxArmour Series features a swing away handle that allows you to swing the top heat platen away from the lower platen safely and easily.
	Improved Pressure Adjustment: The pressure adjustment knob on the MaxArmour Series is hidden in the black cover and has been improved for smoother action. It is now easier than ever to adjust the upper heating platen to accommodate thick items.
	Upgraded Time/Temperature Gauge: Setting the time, temperature and changing temperature scale from C to F is now easier with the MaxArmour Series. The advanced digital gauge displays temperatures with a 4 degree accuracy range. The automatic timer alarm begins to sound 3 seconds for it reaches zero to prevent over heating of your material.

Specification

Model No.	MAX-100
Machine Type	Swing Away, Multifunctional
Platen Size	15"x15" (38x38cm)
Under Plate	Changeable
Controller	GY-05 Digital Time & Temp. Control
Printable Articles	Up to 20mm Thickness
Voltage	120V/ 220V
Power	1800W
Time Range	0-480 sec.
Maximum Temp.	225 C
Packing Size	75x55x73cm
Gross Weight	46kg

Application

MaxArmour's Max-100 is the ideal choice for those seeking a combination of comfort, durability, and advanced features in a swing-away heat press.
